

RIPE

A large graphic of the RIPE logo, featuring the word "RIPE" in white, bold, sans-serif font. Below the text are two horizontal white bars of different lengths, and two vertical teal bars of different heights, all overlapping to form a cross-like shape.

NWI Review

NWI-1 Managing abuse contacts in the DB

- During the discussion some said if we need tools maybe it is too complicated
- We will ask the RPE NCC to look at the design and see if it can be made easier

NWI-2 Displaying history

- Arbitrary limited history of operational objects available
- Not enough comments to have a clear view forward
- DBTF asked for input on history in the database
- Your thoughts needed about historical data

NWI-3 Afrinic homing

- Nothing more needs doing from RIPE community perspective
- Marked as Finished

NWI-4 Multiple "status:" attributes

- Assigning a whole allocation

- Status: ALLOCATED

Status: ASSIGNED

- Not enough comments to have a clear view forward

NWI-6 Applicable data model

- No comments
- Cancelled by author

NWI-8 LIR's SSO Authentication Groups

- Stage 1 finished
- LIR's Non billing Users contained in a default authentication group
- New authentication method references authentication group
- Do you want Stage 2?
- User defined SSO authentication groups
- We need your input...

NWI-9 In-band notification mechanism

- NRTM service is open to anyone
- No progress on a 'next generation NRTM'
- Suggest mark this as Finished
- RIPE NCC (with members?) can work on next gen when time permits

NWI-10 Definition of Country

- RIPE NCC just published RIPE labs article on implementation
- https://labs.ripe.net/Members/stefania_fokaeos/our-plan-to-fix-country-codes
- Please comment on DB WG mailing list

NWI-11 Internationalised Domain Names (IDN)

- Punycode has been deployed
- Marked as Finished

- Further info on all NWIs:
- <https://www.ripe.net/manage-ips-and-asns/db/numbered-work-items>
